Drosenblat@the.grid.net

Dear fellow SLOGAN collectors:

Only a short note for this final issue of 1998. Holidays are upon us and we wish all of you a happy Chanukah, Christmas, and Kwanza (cumulatively or individually). The winter season is time to get out the albums and re-organize, organize and remount, etc.

As mentioned above this is the final issue of the SLOGAN BOX for 1998. This means that dues for 1999 are now due. As the study group has money in the bank I believe that we can keep the dues the same for 1999 at \$10 (either U.S. or Cdn. depending upon where you live). This will cover most of the postage for our six plus issues for the year.

An accounting of the study group funds will appear in Issue #57.

For 1999 we can anticipate a second supplement to the hand stamp handbook and a first hand book on meter slogans as well as many important research papers on machine slogans prepared by our editor, Dan Rosenblat.

For the current issue Cecil Coutts has prepared an informative article on machine slogans from Prince Albert (Saskatchewan). An updated listing of the classic slogans is also included. The latter is available on computer disk in a number of computer readable formats (excel, 123, text only, dbase, etc.). I will send disks to members upon their request.

Prince Albert, Sask. Cancelling Machines

by Cecil C. Coutts

In the space of just over three years, Prince Albert, Sask. (P.A.) used three cancelling machines.

The International (I) machine, seen opposite, was issued about 14 March 1913 and saw use until June 1919.

P.A. did not receive a Universal (U) machine when the major switch from (I) to (U) was made in mid-1919. Rather, a Columbia (C) machine (opposite) was issued in late June 1919.

The (C) machine saw service into 1920 and 1921.

H-380, opposite, is dated Aug. 12 1920. Until now, the (C) 1920-21 Forest Fire slogans have been incorrectly reported as being from (U) dies.

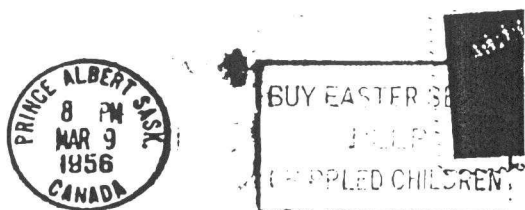

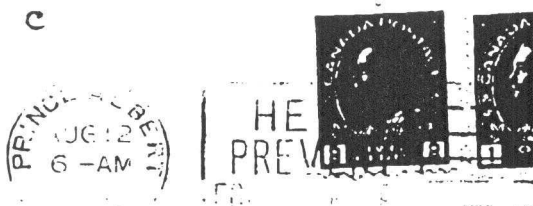

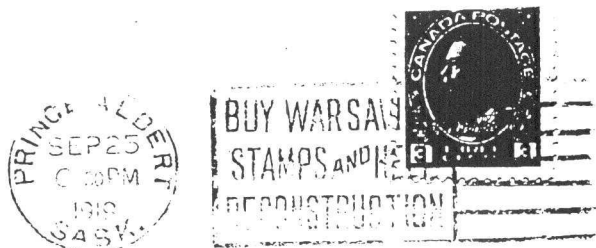

Another (C) die of H-380 dated June 23 1921.

The Universal machine, opposite, was introduced in 1922 and replaced by a Perfect (P) machine in October 1935.

The (P) machine carried the wavy bar killer from 1935 to 1938. The first (P) slogan was the Air Mail (A-210), seen opposite, with an ERD of 12 Nov. 1938.

The (P) machine was replaced by a Pitney-Bowes (PB) in February 1953. The first (PB) slogan was B-740, ERD being 9 March 1956.

The (PB) was replaced in 1989 by an International Peripheral Systems (IPS) machine, (not shown) currently in use.
